The Giraffe

The giraffe is a mammal or warm-blooded animal that has fur. The giraffe is the world's tallest animal on land. It can be as tall as 18 feet. Giraffes have the largest hearts of any animal because it has to pump blood all the way up its neck and to its head. No two giraffes have the same coat. Adult Giraffes have few enemies and can live to be 25 years old. A giraffe sleeps less than two hours a day. Giraffes live mostly in Africa on savannahs (sev-ana-s) or grasslands. It can eat over 100 pounds of leaves a day. A giraffe uses its tongue to get leaves out of trees.

The Giraffe

Use your crayons to highlight where you found your answer.

1. What does a mammal mean?

- A. An animal with fur and is warm-blooded
- B. An animal that is warm blooded with feathers
- C. An animal with scales and is warm-blooded

2. Why do you think a giraffe lives on a savannah?

3. Do you think it is easy or hard to tell two giraffes apart?

Amelia Earhart

Amelia Earhart was an aviator or a pilot. She was born over a hundred years ago in 1897. Amelia bought her first plane called "The Canary" when she was 23. She had only taken lessons for a few years before she tried breaking flying records. Her first, was flying higher than anyone else at the time. When Amelia was 28, she was asked to fly across the Atlantic Ocean solo or alone. This changed her life forever. She broke several records during that flight. When Amelia was 38, she was asked to fly alone around the world. She crashed at first, and tried again. She almost made it before running out of gas after getting lost. Her plane was never recovered, but Amelia is known as an inspiration and hero. She helped women to try things that only men had done before.

Grand Canyon

The Grand Canyon is in Arizona. The Colorado River runs through the Grand Canyon. The water and wind wears away the rock little by little. This erosion changes the shape of the rocks over time. Rocks at the bottom of the canyon are over two billion years old. The Grand Canyon is so deep, that it can be seen from outer space! The canyon is home to over 35 different snakes. The most common is the Pink Rattlesnake. Visitors at the Grand Canyon park must bring their own non-plastic water containers. There is no selling of plastic water bottles in the park.

Grand Canyon

Use your crayons to highlight where you found your answer.

1. What does erosion mean?

- A. Water and wind wearing rock away.
- B. Rocks moving around.
- C. A river that goes through rock.

2. Why can you see the Grand Canyon from space?

3. Why wouldn't the Grand Canyon Park not want to sell plastic bottles?
